GENERAL INFORMATION

LOCATION

The Junior College is located a little less than a half mile west of the depot at Goodman, in the Eastern part of Holmes County and on the main line of the Illinois Central Railway between Jackson and Memphis.

The location is ideal in every respect for such a school. While we have the convenience of town, we enjoy all the benefits of a rural environment. There are not attractions in town to entice the students away from the campus. The citizens of the town have a commendable pride in the school. They have always extended a cordial welcome to the students—"Our boys and girls," they call them—and have shown that the town environment is favorable for the school.

HISTORY

The Holmes County Agricultural High School, established twenty years ago, has a history of which the management and citizens of the County have a right to be justly proud. Beginning with one building and a small enrollment, the plant has been enlarged until today it stands as one of the best Junior Colleges in the State. The attendance has steadily increased. During the session just closed the High School department maintained previous enrollment and the college department made great increase, reaching 199 students taking college work.

SOME ADVANTAGES OF A JUNIOR COLLEGE

- A. Smaller classes allow better instruction.
- B. Close association between students and teachers.
- C. Affords bridge for the gap between the college and high school.
- E. Individual development.

FINANCIAL SUPPORT

The large part of finance to Holmes Junior College comes from the County in which the institution is located. Holmes County has been entirely responsible for the plant now valued at \$250,000.00. Carroll County co-operates in maintenance of the school. This gives free tuition to all students from Carroll County. The State Legislature has made appropriations for Junior Colleges. One half of this distribution is made equally among the Junior Colleges and the other fifty per cent is distributed on per capita basis.

SCHOOL PLANT

Building And Equipment

There are six main buildings: The Administration Building, the College Girls' Dormitory, High School Girls' Dormitory, Boys' Dormitory, Agriculture Building, and Home Economics Building. These are brick buildings and have all modern conveniences, such as, steam heat, electric lights, sanitary closets and bath equipment. All buildings are screened throughout. Our gymnasium, a frame building, was made during the session of 1928-'29. The material was secured and the boys began work. Dressing rooms, band room, and bathing facilities make one of the most useful buildings on the campus. Who built it? Boys, girls, faculty, and community.

The Farm

The school farm consists of 80 acres of land conveniently located which is used for growing vegetables, raising feed crops and grazing. It furnishes an effective laboratory for the teaching of agriculture.

A modern dairy barn, with concrete floor, steel stanchions, and other appliances furnish practical work

in dairying. A splendid herd of registered Jersey cattle is owned by the school. Milk from the dairy is used at the dormitory.

The two breeds of hogs in the school herd are from the Scissors strain of Duroc and were procured from the James herd at Charleston, and big bone Poland China.

A two-acre orchard is being grown. This, in addition to supplying work in horticulture, will furnish fruit for eating and canning.

A well-conducted poultry department is maintained. Two breeds are used—the White Leghorn from the Ferris strain and the Barred Rock. The incubator and brooder are used and students are given practical lessons in poultrying.

An effort is made to have the very best garden possible at all times of the year.

The activities undertaken in the conduct of the farm afford an object lesson in teaching and furnish projects for vitilazing the work of the classroom. Every farm in Holmes County should have at least these activities in successful operation.

Library

The library is located on the third floor of the Administration Building. Nearly half of the third floor is used for this purpose. It is well lighted and ventilated. It contains more than 3000 volumes in the stack room and in the shelves along the walls of the reading room. Comprehensive material may be found here on any subject. Unabridged dictionaries, encyclopedias, and numerous reference sets are accessible to all students. Local, State, and National newspapers and magazines are not to be taken from the library; books may be taken out from one to seven days without

charge, provided they are returned in due time. A full time librarian is employed.

The Laboratories

The Chemical and Biological Laboratories are located on the basement floor of the Administration Building. Each is a large room, well lighted and ventilated. Gas and water are available. Standard equipment is used in these laboratories and is sufficient for the courses afforded.

The Agricultural and Home Economics Laboratories are housed separately in two very beautiful which are fully equipped for work in these departments.

Extention Work

We wish the school to serve all the agricultural interests of the county, and we stand ready to assist any one in the county in all ways within our power. If you ask us to do something we are not prepared to do, we shall find the fellow who will be able to serve you without cost to you.

We have a leveling instrument and are prepared to terrace land, to locate ditches, and shall be glad to send capable studnts to any part of the county without cost to the farmers, except transportation. We shall, also, be glad to test seeds, make tests of milk showing quantity of butter fat, assist in laying out farms and making suggestions for crop rotation. We can lay out, prune and spray your orchard; vaccinate and inoculate your cattle and hogs. We can plan and assist you to install light and water plants in your homes. Our Education, Agriculture and Home-Science departments take pleasure in helping teachers and parents to solve their problems.

Student Labor

All the work of the school and farm is done by the students. Besides the practical work in Agriculture required by the state, students may work extra time for which they will be paid at the rate of 10 cents an hour. In extra work we put the matter on a business basis and expect an hour's work for an hour's pay. Preference will be given efficient, willing workers. This plan offers industrious fellows the opportunities to earn a part of their expenses by their own efforts.

The dignity of labor is one of the lessons we of the South need to learn and one of the most important functions of the school is to dignify manual labor and ennoble the laborer. We shall not have any one connected with the school in any way who does not enter heartily into the spirit and set a good example. An idle person will not find a congenial atmosphere here.

A number of regular jobs are open to boys and girls who wish to earn a part of their expenses. Application for these should be made to the superintendent. A student must maintain a good literary and conduct record in order to have a working scholarship.

Accredited Relations

Holmes Junior College is fully accredited by the State Commissions on Junior Colleges which assures a student the recognition of all credits made in this school. Requirements for entering different fields of study vary and by all means a student should strive to know his chosen field in order that little time and credit would be lost by transfer from High School to College and from Junior College to a higher institution.

DETAILED INFORMATION

ENTRANCE REQUIREMENTS

Any boy or girl in good health and of good moral character, who has completed satisfactorily the work of the 9th grade or at least 3 units is eligible for admission to our high school department.

Full credit is given for work done in any accredited high school. A transcript properly made out should be presented at the opening of the session. Those who come from schools not accredited validate their units by examination or take subjects over as new. Such special examinations are given during the eighth week of school. A student must be making a creditable showing in his work in order to be given such test: His classification will not be determined until work is properly validated.

All students on entering will be required to sign the following pledge: "I hereby promise on my honor that while a student of the Holmes County Agricultural High School and Junior College, not to have in my possession any kind of fire arms; nor to drink or bring on the campus any form of intoxicating drink; not to engage in 'hazing' or other maltreatment of a fellow student; that I will not leave the school grounds without the permission of the dean, matron, or faculty member who is serving in their stead."

EXPENSES

Expenses are paid in advance and monthly statements are not sent out by the college unless requested.

Matriculation Fee, paid by all students	\$5.00
Student activities Fee, paid by all students	5.00
Board per month of four weeks, (Dormitory students)	12.50

Medical Fee (Dormitory students) session	1.00
Laboratory Fee (Students in Chemistry or Biology) session	2.00
Commercial (students in typing and short- hand) session	2.00
Piano, per month	4.00
Band, per month	2.00
Expression, per month	4.00

No tuition is charged students from Holmes and Carroll counties. Students from adjoining counties that have joined with Holmes in Junior College program according to Senate Bill 131 are admitted without tuition charge. Students from other counties will pay \$25.00 per session which may be paid in two installments of \$12.50 at the beginning of each semester.

The matriculation fee of \$5.00 should be sent in at once to insure room reservation.

Students who leave before the close of the month will be charged full time unless absent 10 days, and then only when absence is due to sickness. Meal tickets at 25c each are available for visitors.

SCHOLARSHIPS

The school offers working scholarships, as dining-room waitress and custodians of buildings, to worthy girls and boys. These carry an amount sufficient to pay for one-third to one-half of the student's board. In order to hold one of these scholarships the student must make passing grades in his work and must show himself to be loyal in every respect. No student need apply for working scholarship if he expects to visit off campus more than once each term of nine weeks.

FEDERATED CLUB SCHOLARSHIP

The Holmes County Federation of Women's Clubs

offers one whole or two half scholarships to girls. Applicants from the rural section of Holmes County will be given preference. The committee may use its discretion in choosing applicants from rural sections of Carroll and Attala counties. Moral character and scholarship shall be considered in making the award.

Application for one of these scholarships must be mailed by July 1st, to Mrs. W. G. Brock, West, Mississippi. Successful applicants will be notified August 1st.

MEDALS AND TROPHIES

The Interstate Bank and Trust Company of New Orleans, La., gives each year a medal to the writer of the best essay on an assigned subject. This contest is open only to the members of the twelfth grade.

The Honor Student medal is given each year to a member of the twelfth grade. The winner of this medal is determined by the following points: Scholarship, School Activities, (band, athletics, Glee Club, Literary Society, Religious organizations) and attitudes and loyalty to the school.

The M. C. McDaniel trophy in debate is given to the Literary Society winning the inter-society debate.

GENERAL REGULATIONS

1. Each student is expected to register, get classified, and meet classes immediately after he arrives.
2. Each student is expected to be in his or her room during study hours.
3. Every student is expected to report to all meals and on time unless reported sick.
4. Students who leave campus at times other than when general permission is given is expected to obtain special permission.

5. High School students report to study hall during vacant periods.

6. Students under 20 years of age unless responsible for own expenses must have written permission from parents or guardians if they wish to visit off campus.

7. Smoking except in rooms will not be permitted.

8. Students under 20 years of age unless responsible for own expenses cannot withdraw except by written consent of parents.

9. Friends who visit for meals or to spend night in dormitory should report to matron or dean. Students who entertain visitors in dormitory without knowledge of dean will be subject to suspension. Guests will be expected to observe dormitory regulations.

10. In returning to campus from visits, etc., girls are expected to come directly to the college before dusk and boys not later than 10 P. M.

Boarding Department

The boarding department will be under the immediate supervision of the superintendent and the matron. It will be our purpose to give the students committed to our care the comforts and attention of well-regulated Christian homes and to make this an entirely safe place for them.

The teachers live with the students in the dormitories and supervise their work and study. This contact and association makes dormitory life one of the best features of our Agricultural High Schools and Junior Colleges.

Rooms And Room-Mates

The matriculation fee of \$5.00 is required before any room is reserved; this is not an extra fee. All

students pay the fee upon entrance unless it has been sent in to reserve room at an earlier date. Former students are given preference to former rooms until July 15th. After this date rooms may be assigned in order for which they are spoken.

Rooms in dormitory are furnished with single-sized beds, washstands, dressers, chairs and tables. Students are held accountable for the care of the room and all articles therein. Each student is expected to bring with him the following articles:

Two pairs of sheets (single bed size).

One pair of blankets or quilts.

One pair counterpanes.

One pillow.

Two pillow cases.

Towels and toilet articles.

One laundry bag.

One pair sash curtains 36-in. long.

Water glass and spoon.

All articles to be laundered should be marked with the full name of the owner.

One's room-mate is much more to be considered than the room. An undersirable room-mate can make the most desirable room unfit to live in. If any one has preference of room-mates, the authorities are willing to permit them to room with each other, at least until they prove that such is not good for themselves or for the school. Many of the students are unknown to us at the opening of the session and some changes in room-mates are necessary. However, constant changing is not desirable nor permissible.

DRESS

The dress of the students should not be extravagant. Inexpensive clothing kept neat and clean is

desirable. Each student is expected to wear own clothing. Borrowing is an expensive, useless and unsanitary habit. Each girl is expected to bring one pair of black bloomers and white blouse for physical education. Each dining room girl is required to have white apron trimmed in maroon. These will be made by the girls the first week of school so that all will be made by the same pattern.

For graduation the college students will use caps and gowns. High school girls will make their own class day dress of voile or organdie and will be allowed only one other commencement dress. These to be made under the direction of home science teacher and class sponsor.

SUNDAY SCHOOL AND CHURCH ATTENDANCE

We believe that the Sabbath Day should be used for rest and worship. To this end all students are expected to attend Sunday School and Sunday morning preaching service. They are also encouraged to attend the night service. There are four churches in Goodman as follows: Methodist, Baptist, Presbyterian and Lutheran. All these extend a cordial welcome to students and teachers of the school. Quiet hour for meditation is observed in the dormitories from 2:00 to 3:30 o'clock Sunday afternoon.

Further religious training is obtained in the Hi-Y and Girl Reserves organizations. These afford fine opportunities for spreading a Christian influence. Chapel exercises are also directed toward moral and religious ideals.

DISCIPLINE

Education means discipline—discipline of the mind and body. School government should be such as to inspire the student to the right government of him-

self. The greatest amount of freedom consistent with good order will be allowed in the direction of individual conduct, and privileges will be withdrawn when abused. It shall be our purpose to instill principles of right conduct and that high regard for the rights of others, so that when our boys and girls become men and women they will be law-respecting and law-abiding citizens. The tone and character of our student body are such that we shall return the boys and girls stronger in all good things than when they came to us. If we get the right kind of material we promise to do this. We appreciate the honor system as a strong factor in the formation of good character, yet proper guidance and control will be exercised.

The school is not intended as reformatory for refractory boys, and vicious, idle fellows whose influence is injurious to the student body, and who show no disposition to improve their opportunities will not be retained.

BOOKS

The college book store is in the administration building where all text book and other school supplies can be purchased. The book store cannot extend credit to students for their supplies.

WEEK-END VISITS

Experience has proved that it is not best for students to visit home or elsewhere too often. One each six weeks is considered sufficient for regular visits. Permits for leaving on visits should be made from parents to superintendent or dean rather than from students. Girls are allowed to visit only after invitation comes direct from parents into whose home the visit is to be made. All will be expected to observe this suggestion. At any time when students give evi-

dence of poor class work the visiting privilege will be withheld. Parents are expected to co-operate in this matter even if it means that their own child stay from home a week or two longer than expected.

STUDENT ACTIVITIES

LITERARY SOCIETIES

Literary societies are a valuable supplement to the work of any student. There comes a time in the life of every person when he wishes to stand on his feet and and express his views on public questions. Lack of training in this important work at the right time proves a serious handicap in life. The program consists of debates, music, declamations, readings, current event items, and other interesting and instructive features. Declamation contests for medals will be arranged to encourage the work. From the interest shown, we confidently expect this line of work to become one of the most helpful of our school.

Fine work and excellent literary society spirit has developed this year. Each student in the college is expected to join and work in one of these societies—the Alethean and the Clio-Phi. The Neka Camon is literary society for high school students.

STUDENT PUBLICATIONS

The Paper—"The Growl"

The College Paper—"The Growl"—suggested by our teams known as "Bull-Dogs" has won its way into the lives of our students and friends and each one eagerly awaits the following issue. Through the columns of the school paper the students find chance to learn the art of news writing at close range.

College Annual

The "Corner Stone" published for the first time during the session of 1928-'29 is creditable to the institution and to those who made it a success. It is a beautiful book and in years to come will remind every one of those good friends and pleasant experiences of college days. Due to economic depression there was no book printed session 1931-'32.

ATHLETICS

Appreciating the value and importance of proper physical development, students are encouraged to engage in open air exercises and outdoor sports. After the day's work in the school room, a time is set apart for exercise and every student will be expected to take some form of physical training. A director has been provided for the boys and one for the training of the girls.

The campus contains a splendid athletic field. We shall have teams in all major sports, also track and tennis. Students representing the school on teams are required to do satisfactory class room work and to conform to all requirements of the State Literary and Athletic Association, of which this school is a member.

The athletic teams are in charge of the faculty and all games are arranged by the teachers. We do not allow participation in sports to conflict with school duties, on the other hand, we get interest, school spirit and efficiency in regular work from these exercises. Every girl should bring one pair of tennis shoes, one pair of dark bloomers (navy blue preferable) and a white blouse for their physical education.

BAND

One of the best means to advertise our school is with a brass band. Our boys have made fine prog-

ress during the recent years and can perform creditably. The work is under the direction of a capable instructor. Each one who has an instrument is encouraged to bring it with him. A reasonable charge of \$2.00 per month is made for this work.

GLEE CLUB

The Holmes Junior College Glee Club is under the direction of Miss Mabel Gewin. Regular meetings are held each week. The number of members is limited and is open through tryout, to the student body at large. A fee of 25c per month is charged in order that needed materials can be secured.

DRAMATIC CLUB

Holmes Junior College has a regularly organized Dramatic Club under the direction of the Expression teacher, Miss Annie Bess Watkins. Membership in this club is made up of those interested not only in acting, but in the other activities of drama and dramatics. Everyone who wishes to become a member is given an opportunity to prove his ability in acting or in any of the varied activities of stage craft.

RELIGIOUS ORGANIZATIONS

The Y. M. C. A. and Y. W. C. A. for college students and Hi-Y and Girl Reserves for High School students afford a splendid opportunity for worthwhile training. The Epworth League and B. Y. P. U. organizations are active on the school campus.

SOCIAL LIFE

Desirable social and moral atmosphere have more to do with character building than class room work. Our teachers will co-operate in their efforts to provide

suitable recreation for the student body, and will take a lively interest in all those activities calculated to supply the demands of their social nature. We shall not retain the services of teachers who prefer to find their social pleasures away from the student body. Association of teachers with the pupils during their out-of-class hours is too valuable an influence for the school to neglect. Parents may rest assured that their sons and daughters will have the best attention and care in this most important phase of school life.

SCHOLASTIC REGULATIONS

CREDITS

The credits of the College work is expressed in terms of "semester hours." A subject that carries a value of three semester hours is one that meets three times per week for 18 weeks. A two semester hour subject meets only twice a week for 18 weeks. First year students are not permitted to carry more than 17 semester hours of work during each half year.

REGISTRATION

Students are expected to register and get classified during first two days of the semester. During the first month, within the discretion of the dean, courses may be dropped for the following reasons: over-load, lack of preparation, ill health. After the first month a discontinued subject will be recorded as a failure.

EXAMINATIONS AND CLASSIFICATIONS

Two regular examinations will be held during the session—one at the close of each semester. Written tests will be given at close of each nine weeks. Special examinations on subjects conditioned in our school

or to validate work done in non-accredited school will be given in the eighth week of school. Definite classification will be made after the 8th week. The basis of classification with minimum units needed is as follows: Tenth grade, 3 units; eleventh grade, 7 units; twelfth grade, 11 units; freshman college, 15 units; sophomore college, 24 semester hours. Exceptions may be made to the amount of one unit or four semester hours in case of seniors who have a chance and expect to graduate the following summer.

GRADING

Grading will be made in letters A, B, C, D as passing grades and F. as failing grade. Grade D is a passing grade but carries no honor point. A student must have honor points equal to the number of semester hours in College or half units of credit in case of high school work that he does in our school in order to graduate. To do this he may earn honor points in activities as well as class work.

HONOR POINTS

3 honor points for each semester hour with A grade.

2 honor points for each semester hour with B grade.

1 honor point for each semester hour with C grade.

Literary Society Work, Athletic and Physical Education, Band, Dramatics, and Glee Club will each be checked as one semester hour courses each semester. College students who earn 150 honor points will be graduated with "Special Honors." One who earns 120 will be graduated with "Honors." High school students who average 24 honor points for each year in attendance will be graduated with "Special Honors"

and those who average 16 for each year in attendance will be graduated with "Honors." No student having more than 10 reprimands will be graduated with honors.

ABSENCE FROM CLASS

A student should realize from the beginning that he suffers a great loss each time he is absent from class, and also causes his classmates to lose time. Only in extreme cases are absences to be excused and even when such excuse is given the student is required to do make-up work. Unexcused absences count a zero grade against the pupil. Double penalties are given for absences before and after stated college holidays.

SPECIAL PRIVILEGES AND UNSATISFACTORY LISTS

The grades of all teachers are turned in every two weeks. From these grades the students who average "B" and who have no reprimands during the two weeks' period make up a special privilege list to be posted in bulletin board. Those who are not passing in at least three subjects or who have as many as three reprimands for misconduct are placed on unsatisfactory list. The students on this list remain on campus and cannot participate in inter-school activities for two weeks following.

COURSE OF STUDY

The course of study for Agricultural High Schools is a state adopted course. There are required subjects in each year and electives which are generally vocational.

Sixteen units are required for graduation. Our graduates are admitted to all the colleges of the state without examination. To enter the work of the sec-

ond year, students must bring a certificate showing that they have credits from an accredited school, or must validate the work by an entrance examination.

HIGH SCHOOL

Graduation from our High School department requires units as follows:
